Overview

The Central Alabama Partnership for Training and Employment Workforce Development Board (CAPTEWDB) is seeking competitive bids for the Out-of-school Youth Program (OSYP) funded through the US Department of Labor (USDOL) and the Alabama Department of Commerce - Workforce Development Division by the Workforce Innovation and Opportunity Act (WIOA). The CAPTEWDB's Out-of-school Youth Program (OSYP) is a training program for youth, ages 16-24, which are out-of-school according to SEC. 129 a1B of the Workforce Innovation and Opportunity Act (WIOA)

The goal for programs under this RFP is to assist youth in the CAPTE local area attain the education and employability skills that are necessary to get a job, keep their job and advance in their chosen career pathway and to obtain training linked to careers aligned with the skills need of industries in the area.. WIOA services to eligible out-of-school youth are designed to assist them in forming a permanent attachment to the labor force.

Background and Purpose

The purpose of this Request for Proposal (RFP) is to solicit competitive proposals for the delivery of youth programs which provide local, short-term Occupational Skills Training, or Work-Based Learning, or GED tutoring for certification or high school diploma training for eligible out-of-school youth under the Workforce Innovation and Opportunity Act. This RFP for academic and occupational youth services programs will serve out-of-school youth ages 16 - 24 (with barriers to employment as identified by WIOA) by agencies that can meet or exceed the goals and expectations of the WIOA. The training programs must offer or make available to youth the 14 elements listed in the Act; as well as soft skills training and job placement. Organizations must indicate which areas of the region will be served.

Serving youth is a priority with WIOA and the Governor's Local Workforce Areas. WIOA requires that at least 75 percent of available funds be spent on workforce investment services for out-of-school youth. The law also requires 20 percent of youth funds be spent on paid and unpaid work experiences that incorporate academic and occupational education for youth. These work experiences can include year-round employment opportunities, job shadowing, pre-apprenticeship training, internships and on-the-job training. CAPTE youth programs will focus on providing academic and occupational skills training to out-of-school who have limited skills, little or no work experience and other barriers to economic success. It is essential for Local Area 4 to encourage and support these youth in obtaining the education and skills needed to not only succeed in the labor market but to have a long and prosperous career. The goal for programs under this RFP is to help youth in CAPTE local area attain the education and employability skills that are necessary to get a job, keep their job and advance in their chosen career pathway.

Proposals should connect academic and occupational skills training for the following in-demand industry sectors: Manufacturing, Healthcare, Energy, Services, and Logistics that lead to industry recognized credentials. Proposals should target the industry sectors represented in their local service/target area and be documented in the proposal. Other industry sector opportunities must be supported by relevant labor market information. Each industry contains several career pathways in which a youth may enter an occupation and be able to advance within that specific occupation or occupational cluster. Successful employment in these industries will lead to self-sufficiency. Proposals should be designed to incorporate the following services:

- outreach, recruitment and orientation
- initial WIOA eligibility determination
- comprehensive assessment of eligible youths' current academic skills, employment skills and supportive service needs
- development of an Individual Service Strategy
- on-going case management from enrollment through follow-up, which includes guidance and counseling for out-of-school youth; with frequent detailed case notes documenting activities and contact
- referral for youth who do not enroll in WIOA programs
- tutoring and study skills training
- on-going mentoring opportunities
- activities leading to a secondary school diploma, its equivalent or post-secondary credential
- incentives for specific activities and/or accomplishments

 - Appearance/Dress

 - Communication and Following Instructions
 - Dependability/ Responsibility
 - Time Management
 - Decision Making and Problem Solving
 - Leadership and Motivation
 - Financial Knowledge and Management
- Strong linkages between academic instruction and occupational education that lead to recognized postsecondary and/or industry recognized credentials and are aligned with in-demand industries and occupations in the region.
- Exposure to employment opportunities through activities such as job shadowing, internships and pre-apprenticeship programs by connecting with employers, apprenticeship programs and in-demand industry sectors and occupations available in the local and regional labor markets.
- Work- based training that gives the youth a chance to earn income while receiving training and developing skills best learned on the job.
- Reflect recognized youth development principles that emphasize the cognitive, social, and behavioral competencies that help youth succeed.
 - work experiences (subsidized and unsubsidized) that are in the area of training and can include job shadowing, pre-apprenticeships, and internships (must be 20% of funding; excluding Work Based Learning contracts)
 - unsubsidized job placement assistance of youth who have left the program
 - up to 12 months of follow-up for youth who have exited/left the program
 - management of youth records, including case notes (records must be located in a secure location to ensure confidentiality; copies of all documents related to services to participating youth must be sent to CAPTE at exit; all contractor youth files must be sent to CAPTE at program closeout/termination)
 - management of WIOA youth data to ensure performance goals are met.

YOUTH SERVICES FLOWCHART

RFP Funding Period, and Funds Availability

Contracts resulting from this RFP are anticipated to commence July 1, 2021 and end June 30, 2022. Based on the availability of future funding and the contractor's performance, the CAPTEWDB reserves the option to renew the contract for 2 additional years; with re-negotiation to be initiated by the CAPTEWDB before the expiration of the contract's first and second year. In order for the CAPTEWDB to exercise a second- or third-year option, the contractor should meet the performance requirements as outlined in the contract. However, the CAPTEWDB is not bound to exercise a contract renewal based solely on stated performance outcomes. CAPTE will not reimburse participant costs already paid from another federal program, nor for the same participant across different OSY contracts with the same contractor. Costs may be incurred once all parties sign the Agreement, but not before the effective date set forth in this document and any subsequent changes in the program regulatory requires required by CAPTE through the negotiation process. As WIOA program rules, regulations and definitions are updated, contract modifications may be necessary.

Bidders may apply in one (1) or all categories. Separate proposals must be submitted for each area of training; proposals cannot be combined. Each proposal must satisfy the requirements of this RFP and include complete budget information. Bidders submitting multiple proposals should clearly label each set as separate proposals. Achieving the best result is the key; therefore, no preference or penalty will apply to those who bid in multiple categories. The CAPTEWDB will not consider bids below \$50,000 and reserves the right to provide funding for the proposal(s) that it deems most advantageous to its program and is thereby not bound to fund any proposal based on price alone. The award amount for contracts will be made available to each contractor after the Board has decided which services will be contracted and how much will be spent in the area under consideration. The CAPTEWDB reserves the right to reject any or all proposals.

By submitting a proposal, the bidder agrees to be governed by the terms and conditions set forth in this document and any subsequent changes in the program regulatory requirements as required by CAPTE through the negotiation process. Verbal comments or discussions relative to this solicitation cannot add, delete, or modify any written provision. Any alterations must be in the form of a written amendment to all bidders by CAPTE. Bidders must meet all of the specific requirements set forth in this RFP in order to be considered as having offered an acceptable proposal. No documents relating to this procurement will be presented or made otherwise available to any other person, agency, or organization prior to the proposal evaluation process. Information contained in the proposal that is privileged and confidential and is clearly marked as such will not be disclosed.

Bidders must have experience operating a youth program and have knowledge of WIOA and its regulations. Bidders must furnish satisfactory evidence of their ability to successfully provide their proposed services in accordance with the terms and conditions of this RFP. CAPTE reserves the right to make the final determination as to the proposer's ability to provide the services before entering into any grant agreement. Bidders should note that the provision of the services specified in this RFP requires substantive knowledge and understanding of the Workforce Innovation and Opportunity Act and its implementing regulations, as well as State and local directives.

These standards change each year and it will be the responsibility of the program provider to remain abreast of the current standards.

Grant Close-Out Requirements

Programs will be required to submit (as a part of their Statement of Work) a timeline which includes 30 days for Program Close-Out; which will begin 15 days prior to the conclusion of the contract and conclude 15 days after the termination date.

Program Parameters

Proposals must include Core Services as well as the 14 program elements that are essential to the WIOA. Submitted proposals must demonstrate the full extent to which the provider can offer the core services and the program elements.

Core Services

All bidders for program services must ensure that they will provide the following required core service components:

1. **Outreach, Recruitment, and Orientation.** Outreach and recruitment include, but is not limited to, identifying potentially eligible youth; working with parents and guardians to secure necessary documentation; and working closely with other governmental and community organizations; and the court and school systems. Applicants must be carefully screened to determine their chances for success in the program; e.g., the process used should help staff determine applicants’ suitability and commitment to earning their GED, a vocational credential in an in-demand occupation or training through work-based learning. The youth must also be committed to gaining employment and/or continuing on to post-secondary education when they leave the program. As part of orientation, all youth must receive information on all services available through the bidder and the Career Center. This includes information about all program policies governing such areas as drug and alcohol abuse, attendance, and behavior. Youth must be made aware of the youth development principles practiced by the bidder and informed that services and projected outcomes will be tailored to the individual youth’s needs. Drop-out youth are expected to have the ability to earn a GED within a reasonable amount of time (within year of participation). Staff should ensure that youth have the reading comprehension and math ability upon program entrance that will allow them to be successful.
2. **Eligibility Determination and Registration.** The contractor will be responsible for the initial determination of WIOA eligibility of all youth applicants recruited to its program, in addition to the collection and verification of all necessary eligibility source documents. CAPTE staff will conduct the final eligibility determination for youth participants, which includes the approval of the completed intake/eligibility application, verification of the information provided, TABE assessments not provided by the contractor, initial case management and determination that the applicant meets the required criteria. Under the WIOA, all youth must meet eligibility criteria and be determined eligible and suitable for the program prior to enrollment and receipt of WIOA funded services. CAPTE staff will provide technical assistance on the eligibility and suitability determination process.
3. **Objective Assessment.** Each participant will be provided with an objective assessment interview by the provider and CAPTE staff. In this interview, the case manager at each location will begin to build a partnership with the participant and will seek to assess the participant’s suitability and commitment to earning a credential; maintaining regular program attendance; and gaining and maintaining employment upon leaving the program. The case manager will use the information from the youth’s application, testing results (math and reading assessments performed by other agency no more than 1 year prior to application acceptable for review), student transcript, interest survey and the initial interview with the youth to determine the youth’s suitability for enrollment. The case manager will make an assessment of their

academic skills, employment skills, and supportive service needs. This includes a review of educational skill levels, occupational skills, prior work experience, employability, interests and aptitudes. The goal is to accurately evaluate each youth in order to develop an appropriate service strategy to meet their individual needs. For basic skills testing the TABE test must be used; no other test is acceptable.

4. **Individual Service Strategy (ISS).** The case manager will use the results of the youth's preliminary and objective assessment to develop the youth's Individual Service Strategy (ISS) which will lay out a path for workplace preparation. The ISS is an age-appropriate, individualized, written plan of short- and long-term goals that include employment, involvement in WIOA youth program elements and personal support services. In developing the ISS, case managers must include goals, benchmarks, milestones, assessment interpretations, and record how those interpretations are used to create a comprehensive service strategy for each participant. For all youth, the ISS will identify the timeframe in which each youth will be expected to complete all activity related to each of the goal(s) specified in the ISS. A detailed ISS **must be** developed collaboratively with each participant, so the method for achieving their goal is clear. The ISS will clearly connect the services to be provided to each youth with the outcomes to be achieved between WIOA enrollment and exit. The plan will be considered a living document and used to track services and outcomes to be delivered or achieved. This plan must be reviewed and updated with the participant, both regularly and as changes occur.
5. **Case Management.** Case Management is the infrastructure for delivering effective services that will facilitate the positive growth and development of youth and the achievement of individual and organizational performance goals. Case management is a client-centered, goal-oriented process for assessing the need of an individual for particular services and assisting youth to obtain those services... (Case management, A Resource Manual by Anne Adams, Sundra Franklin, Rebecca Taylor; The Workforce Connection). Case managers and youth work together in a collaborative, documented, goal-oriented, participant-centered process of assessment, planning, facilitation and advocacy for options and services to meet an individual's needs through communication and available resources to promote quality, cost effective outcomes. This process extends from recruitment through follow-up. The case manager motivates participants and coordinates services and information to prepare them for postsecondary educational opportunities, academic and occupational learning, or employment/training opportunities, as appropriate. The Youth Standing Committee expects that the contractor's case managers will have manageable caseloads so that they have adequate time to interact with their youth throughout the youths' participation in WIOA programming and during the required follow-up period.
6. **Referral.** Eligible youth who do not enroll in WIOA programs must be provided information regarding the full array of applicable and appropriate services available through the Career Center and other local programs that have the capacity to serve them with appropriate training and educational services. In addition, eligible youth should be given referrals for further assessment if determined appropriate. Programs are strongly encouraged to partner and share information with other youth-serving agencies, organizations, and training providers in order to meet the individual needs of all youth.

Program Elements (all program elements must be included in the Problem Statement)

The WIOA requires that all program elements be made available to all enrolled youth as needed or requested. The program elements serve to improve youths' educational achievement; prepare youth for entry and success in employment; and support youth development. Which of the services accessed by a WIOA youth participant will depend upon the needs and outcome goals identified by the youth and case manager and documented in the youth's ISS. Bidders must provide written indication that they have clear processes in place for determining how youth are referred to these services; how services and related youth progress are tracked; and how leveraged resources are identified and managed. MOU's must be established, and documentation provided for all elements that may be referred out to other agencies.

Improving Educational Achievement

1. **Tutoring, study skills training, instruction and evidence-based recovery strategies** that lead to completion of the requirements for a secondary school diploma or its recognized equivalent or for a recognized postsecondary credential.
2. **Alternative secondary school** services or dropout recovery services, as appropriate. *Please note that if the organization or agency has not been approved by the state or local school board to operate as an alternative secondary school and provided the necessary documents so attesting, the organization or agency will not be recognized as an alternative secondary school.*
3. **Activities** that help youth prepare for and transition to post-secondary education and training.

Preparing for Entry and Success in Employment

4. **Paid and unpaid work experiences** that have as a component academic and occupational education, which may include summer employment opportunities for out-of-school youth, internships, pre-apprenticeship programs, on-the-job training (participants over 17 years old), and job shadowing opportunities. Paid work experiences may be in the private, for-profit sector, the non-profit sector or the public sector. Paid internships are placement in the private, for profit or the non-profit sector. Work experiences are designed to enable youth to gain exposure to the working world and its requirements; assisting the youth in acquiring the personal attributes, knowledge, skills and abilities needed to obtain a job and advance in employment. The purpose is to provide the youth participant with the opportunities for career exploration and skill development and is not to benefit the employer, although the employer may, in fact, benefit from the activities performed by the youth. Youth participating in paid work experience shall be paid wages which shall not be less than the highest of the following: (a) the minimum wage under Section 6(a) (1) of the Fair Labor Standard Act of 1938; (b) minimum wage under the applicable state or local minimum wage law.
5. **Occupational skills training** is the development of primary occupational skills to perform tasks and technical functions required by specific occupational fields. Priority must be given to job-specific and basic skills training programs that lead to recognized post-secondary credentials in a specific job or industry. These industries must be aligned with in-demand industry sectors or occupations in the local labor market. Bidders utilizing Individual Training Account funding must make every effort to utilize other funding sources to pay for occupational skills training (e.g., Pell grants and other aid available through community and technical colleges and WIOA adult resources for older youth).

Supporting Youth Development

6. **Education** offered concurrently with and in the same context as workforce preparation activities and training for a specific occupation or occupational cluster.
7. **Leadership development opportunities** that encourage responsibility and other positive social behaviors. Activities may include exposure to postsecondary opportunities; community service and service-learning projects; peer-centered activities, including peer mentoring and tutoring; organizational and team leadership training; training in decision making, including determining priorities; and citizenship training, including life skills training.
8. **Supportive services** may include linkages to community services and/or assistance with transportation, childcare, housing, referrals to medical services, and the provision of appropriate work attire and work-related tools. Supportive Services may be provided by the bidder's organization, through referrals to other community organizations, or through services provided under the WDB's Supportive Services Policies. All needs and receipt of services and referrals will be tracked by the case manager and recorded in the case notes.
9. **Comprehensive guidance and counseling**, including drug and alcohol abuse counseling, as well as referrals to counseling, as appropriate to the needs of the individual youth must be recorded in the case notes.

10. **Adult mentoring** for no less than 12 months may occur during both program participation and follow-up. The CAPTEWDB recognizes a gap in the availability of mentoring services for youth. However, bidders are encouraged to provide this element or describe how this element will be delivered through a partnership.
11. **Financial literacy education**; the President's Advisory Council on Financial Literacy defines personal financial literacy as "the ability to use knowledge and skills to manage financial resources effectively for a lifetime of financial well-being." (*2008 Annual Report to the President*) Through financial literacy youth will understand what it means to "manage your money and not be managed by your money."(HSBC Bank)
12. **Entrepreneurial skills training** of interested youth who through an assessment have been identified as individuals who possess the following skills that have been identified as necessary to become a successful entrepreneur includes critical and creative thinking skills, practical skills, personal characteristics, and interpersonal skills. Critical and creative thinking involves viewing a situation from different perspectives and conceiving original ideas; finding solutions to problems as they are presented; and recognizing and developing a plan to take advantage of opportunities as they present themselves. Practical skills and knowledge include goal setting, which includes the creation of a plan to achieve and then carry out the goal; planning and organizing includes project management skills, organization skills and forecasting; decision making will involve the use of relevant information, weighing of potential consequences and being confident in the decision made as a result. Personal characteristics typical of successful entrepreneurs are optimism, vision and initiative, desire for control, drive, persistence, and resilience. Possession of good interpersonal skills is critical in building great relationships with staff, customers, suppliers and more. These skills include leadership and motivation, communication, listening, personal relations, negotiations, and ethics (www.mindtools.com).
13. **Services** that provide labor market and employment information about in-demand industry sectors or occupations available in the local area must be made available by the provider.
14. **Follow-up services** for at least 12 months after each youth exits the program to ensure continuity of services and progress towards the performance outcomes. For those contracts that are renewed for an additional 12 months, the provider will be responsible for follow-up services; otherwise, follow-up will be performed by the CAPTEWDB staff. The types of services provided must be based on the needs of the individual. Follow-up services may include the following: leadership development; supportive services; regular contact with the youth's employer, including addressing work-related problems that arise; assistance with job development; career development; further education; work-related peer support groups; adult mentoring; and tracking the progress of youth in employment after training. By maintaining monthly contact with the participant, the case manager will serve as a resource to identify and address challenges that arise for the youth, especially challenges related to employment and post-secondary education/training.

Employment and/or Postsecondary Education for Youth

Many disadvantaged out-of-school youth who are 16 or older require specialized assistance to transition successfully into postsecondary education and/or employment. In addition to providing access to the program elements, bidders must demonstrate that transition strategies proposed for out-of-school youth are developmentally appropriate and designed to help launch young adults on a path toward economic self-sufficiency.

A. Employment

Employment services should be grounded in a comprehensive assessment of each older youth's employment experience, including job history, interests, skills and abilities. Assessment results should be used to create an employment plan that generates quality job matching, wage progression, and career ladder opportunities. Specialized program design should assist young adults in obtaining viable work experience which may be paid or unpaid, internships and/or job shadowing opportunities, on-the-job "survival skills", and other post-placement services aimed at increasing job retention and satisfaction.

a. Employer Connections

Bidders must have effective connections to employers, including small employers, in in-demand industry sectors and occupations of the local and regional labor markets. Youth are placed in work experiences or internships with area businesses and community-based organizations, while other employers may participate as job-shadow hosts and/or mentors.

Bidders are encouraged to include innovative and sustainable employer partnerships in their WIOA Youth Program response. These connections must lead to youth placements in employment and/or postsecondary education, as well as meaningful exposure to the world of work with measurable skill gains.

B. Postsecondary Education

Bidders should outline strategies that help older youth to assess, pursue, and be retained in academic or career/technical degree programs, apprenticeships, industry recognized certification programs, or advanced career/technical training. These opportunities should ensure marketable credentials or certifications that will lead to employment placement or career progression upon completion. Priority should be given to training in growth industries and opportunities in the local market. Program design should maximize older youths’ participation and retention by addressing schedules for those who work full-time or part-time, have families to support, have transportation barriers, or are in need of enhanced student support services.

WIOA Performance Measures

Under the WIOA, local workforce areas are held accountable for the performance of the workforce system. For the CAPTE Youth Program, the desired performance measures are listed in the following table:

<u>Youth Primary Indicators of Performance</u>	
Youth (ages 16-24)	
1. Percentage of program participants who are in education or training activities, or in unsubsidized employment during second quarter after exit	Placement in Employment or Education - 60%
2. Percentage of participants who are in education or training activities or in unsubsidized employment during fourth quarter after exit	Placement in Employment or Education - 70%
3. Median earnings of participants in unsubsidized employment during second quarter after exit	Earnings - % Pending Guidance from State
4. Percentage of participants who obtain a recognized post-secondary credential, secondary school diploma or equivalent during participation or within 1 year after program exit (credential plus employment equals program performance credit for the credential)	Attainment of a Degree or Certificate – 40% (does not apply to work experience programs)
5. Percentage of participants who during a program year are in education that leads to a recognized postsecondary credential or employment and who are achieving measurable gains towards those goals	Measurable Skills Gain - 80% (does not apply to work experience programs)

The Workforce Innovation and Opportunity Act measures the success of the WIOA Youth Program services based on the above set of required performance measures.

All contractors are expected to meet or exceed performance measures.

Note: Performance measures are negotiated on an annual basis and are therefore subject to change based on the negotiations with the Alabama Department of Commerce Workforce Development Division (ADCWDD). These levels should ensure the local area of meeting or exceeding the negotiated levels with the ADCWDD and the DOL. For more specific information on these measures, interested organizations are encouraged to review the US Department of Labor website which will provide guidance and details on program related issues.

The CAPTEWDB will require documented attainment of placement into unsubsidized employment or enrollment into post-secondary education/advance training/occupational skills training. These goals will be monitored and evaluated on a quarterly basis. Performance data will be extracted from the contractor submission of reports.

The contractor **must** submit via email the following participant/program reports (formats will be provided by the CAPTEWDB):

- Monthly Progress and Attendance Report
- Monthly Narrative Report with a description of specific program activities provided during the month and significant accomplishments; description of goals and activities planned for the next month; and updates regarding linked organizations (subcontracted and non-financial partners), including any action to resolve issues with a linked organization. The contractor will also note in this report any programmatic, administrative, or fiscal challenges, as well as any requests for technical assistance.
- Quarterly Status Report

Program Design

General Education Development (GED) Program/High School Diploma Program

Only bidders providing tutoring for the obtainment of credentials from the Southern Association of Colleges and Schools Council on Accreditation and School Improvement (SACS CASI) and/or Distance Education Accrediting Commission (DEAC) will be accepted.

GED/High School Diploma Program Goal - Youth entering the program must be suitable and have the ability to attain their GED/High School Diploma within the program year of participation. The contractor will provide basic skills instruction, tutoring, study skills training, alternative learning methods, such as project-based and computer-assisted learning and will ensure credential earned within the program year.

GED Program/High School Diploma Program Outcomes - Upon program completion, youth will be assisted with placement in further educational/occupational training or employment placement assistance.

GED Program/High School Diploma Program Design Issues The design of the GED Program/High School Diploma program should ensure that youth earn their GED or high school diploma within the program year enrolled. The CAPTEWDB GED Program/High School Diploma Program provider should remain involved with youth from the time of enrollment through earning their GED/High School Diploma during the program year **and for 12 months following completion/program exit** to ensure that youth begin postsecondary education or employment. This involvement will span both the active enrollment and follow-up phases of the WIOA, and must ensure that youth have access, at a minimum, to case management during the follow-up stage.

- Educational opportunities must be intertwined with employment services that address work readiness and career exploration and provide employment opportunities through activities such as job shadowing, internships, and work experience. Educational activities will be flexible to enable youth to participate while working.
- The message that further occupational skills training or college is an achievable goal must be woven throughout the program and emphasized by program offerings such as further training, college applications and financial aid workshops, local training programs and speakers.

- **While GED/High School Diploma attainment should remain a top priority for OSY programs, service strategies must reach beyond the GED/High School Diploma to support youth entry into postsecondary education or employment that will lead to self-sufficiency.** Strong proposals **must** reflect program outcomes that demonstrate progress toward and attainment of these goals. **20 percent of the program budget must be spent on work experience opportunities. The proposal must clearly indicate how these funds will be expended.**
- To the extent possible, participants' work experiences will help youth understand the connection between further training/education, long-term advancement, and guidance in obtaining a permanent attachment to the labor force. **Youth need to develop a realistic vision for their future employment.**
- Organizations that are partnered with the Community College System to provide GED and High School Recovery Services, cannot bill the provision of those same services under a CAPTE service contract. In order to bill under a CAPTE contract the organization must provide the service or submit a subcontracting agreement to the CAPTE Board for consideration.
- **All GED/High School Diploma training participants must receive 12 months of follow up services upon completion/program exit** to ensure that they not only begin employment or post-secondary education but remain employed or in post-secondary and show gains.

Occupation Skills Training (OST) Program

OST is defined as an organized program of study that provides specific vocational skills that lead to proficiency in performing actual tasks and technical functions required by certain occupational fields at entry, intermediate, or advanced levels.

Occupational Skills Program Goals

Programs must be designed to lead youth to form a permanent attachment to the labor force and enable self-sufficiency through the attainment of full-time (20-40 hours per week and an hourly wage not to exceed \$13.50), long-term employment and/or postsecondary opportunities.

Occupational Skills Program Outcomes

Outcomes will vary depending on the needs, interests and age of the youth.

- Service strategies for out-of-school youth ages 16-24, with a recognized high school diploma or GED must connect youth to advanced training, postsecondary education and/or employment. These strategies should help interested participants not only enroll in such training, but also complete training, obtain a credential and gain employment. Any participant who is deficient in basic skills must be offered or referred to services to improve essential reading, writing, math, analytical, computer, and communication skills. Participants without a high school diploma or GED will be referred to that training program provider prior to receipt of occupation skills training.

Occupational Skills Program Design Issues

Design of the programs must address these six issues:

- Strong community partnerships are instrumental to the success and sustainability of second chance programs for out-of-school youth. Proposals should demonstrate comprehensive collaboration among local school districts, community colleges, community-based organizations and employers.
- The program will have specific, in-demand, high wage occupational emphasis. Youth will learn about these occupations in the program's key industry(s) cluster(s) through classroom instruction and introductory hands-on experience gained either during program hours or after hours.
- Employment activities may include paid and unpaid work experiences (work-based learning), including internships and job shadowing; work readiness and employment training; and career development activities. **20**

percent of the program budget must be spent on work experience opportunities. The proposal must clearly indicate how these funds will be expended.

- To the extent possible, participants' work experiences will help youth understand the connection between further training/education, long-term advancement, and guidance in obtaining a permanent attachment to the labor force. **Youth need to develop a realistic vision for their future employment.**
- The provider will provide work readiness training. The skills taught will include, but are not limited to, self-awareness, personal health, improvement of self-image, hygiene, appropriate work attire, knowledge of personal strengths and values, world-of-work awareness, labor market knowledge, job search techniques and positive work habits, attitudes, and behavior. All of which will lead the youth in developing a permanent attachment to the labor force.
- Some older youth may not advance to post-secondary education or advanced training. It is especially critical that the bidder provide these youth with comprehensive employment placement services during their enrollment in the WIOA program. **Bidders must describe their approach to facilitating job placement, job retention, and long-term wage progression, including youth access to local workforce system resources. A review of past job placement performance must be provided.**
- **All occupational skills training participants must receive 12 months of follow up services upon completion/program exit** to ensure that they not only begin employment or education but remain employed or in post-secondary and show wage or educational gains.

Work-Based Learning Program

The CAPTEWDB will operate a Youth Work-Based Learning Program for youth 18-24 years old. Eligible youth will be paid the entry level wage for the position, not to exceed \$13.50 per hour, for 20-40 hours per week, for a period not to exceed a maximum of 520 hours. Programs must be designed to lead youth to form a permanent attachment to the labor force and enable self-sufficiency through the attainment of full-time, long-term employment and/or postsecondary opportunities. Listed below are the policies and procedures for the Work-Based Learning Program. The operation of the program will be the responsibility of the provider.

Goals and Objectives

The goal of the program is to promote the development of good work habits and basic work skills to ensure a long-term attachment to the labor force by participating in a structured paid or unpaid work-based learning activity. The objectives include:

- to improve a participant's work maturity skills through meaningful work-based learning assignments and proper supervision; and/or
- to improve a participant's occupational skills through worksite instruction and well-supervised job tasks; and
- to enhance a participant's academic and other basic skills through relevant worksite experience

Each participant should complete the Work-Based Learning Program with enhanced work maturity skills. In addition, each participant should find that they have a better understanding of future employment or training options (careers, occupational skills training, etc.). Each participant's work-based learning activity will be reviewed and evaluated with respect to the above goals and objectives.

Work-Based Learning Program Development

Design of the programs must address the following issues:

- The program will have specific, in-demand, high wage occupational emphasis. Youth will learn about these occupations in the program's key industry(s) cluster(s) through classroom instruction and introductory hands-on experience gained either during program hours or after hours.

- Employment activities may include paid and unpaid work experiences (work-based learning), including internships and job shadowing; work readiness and employment training; and career development activities. The paid employment activity must be 20 –40 hours per week and preferably with a work-site company that has a vacant position in the occupational area where the participant will have an opportunity to become an employee of the company.
- The contractor will provide work readiness and soft skills training prior to enrolling participants in this activity. The skills taught will include, but are not limited to, self-awareness, personal health, improvement of self-image, hygiene, appropriate work attire, knowledge of personal strengths and values, world-of-work awareness, labor market knowledge, job search techniques and positive work habits, attitudes, and behavior. All of which will lead the youth in developing a permanent attachment to the labor force.
- To the extent possible, participants’ work experiences will help youth understand the connection between further training/education, long-term advancement, and guidance in obtaining a permanent attachment to the labor force. **Youth need to develop a realistic vision for their future employment.**
- 20 percent (CAPTE requirement) of the contract amount **must** be spent on work experience; minus those spending areas listed in the Act and the Final Rules.

The Provider

The Provider will solicit, review and select worksite/facilities. The Provider staff will monitor the participant(s)’ job performance, help solve work-related problems that may occur, provide very basic counseling as necessary, and link the participant(s) with support services. The Provider will be responsible for collecting timesheets for youth participant(s) on a weekly or bi-weekly basis, tracking participant(s) and associated outcomes, verifying participant(s) time and attendance with worksite supervisors, assisting youth participant(s) with on-line applications and career exploration, answering questions, problems, etc.

Worksite

The worksite is responsible for supervising youth participant(s) and ensuring they are engaged in a meaningful work-based learning activity. A Worksite Agreement and Worksite Job Description form will be developed between the worksite and the Career Center. Both parties will sign the description form and attach it to the original and all copies of the Worksite Agreement.

Appropriate Worksites

Work-Based Learning worksites may be either public (governmental) or not-for-profit agencies (non-profit). Internship opportunities will be available at private (for-profit) worksites. Participants can earn an amount not to exceed \$13.50 per hour. The participant’s rate of pay for the work experience should be comparable to the rate of pay for a new employee at the worksite who is performing the same tasks. Case Managers will need to document in the participant’s case notes that they are being paid the company’s normal beginning rate of pay for the job. Before assigning participant(s) to a worksite, the Career Center staff will consider whether the location and training assignment will meet the participant’s needs. Worksite selection should be as flexible as possible; however, the following are some points that should be considered:

1. Worksites should provide experiences that enhance the participant(s)’ potential to achieve the program’s outcomes and the participant(s)’ goals.
2. Worksites should treat Work-Based Learning youth participant(s) in the same manner as they would any other employee.
3. Worksites should provide meaningful training assignments that are related to the occupational interests of the participant(s).
4. Worksites should expose the participant(s) to materials, processes, tools, and technology that correspond with those used by similar agencies.

5. Worksites should utilize the participant(s)' time productively.
6. Worksites should be willing to put the participant(s) into a training assignment that provides development of work maturity skills.

Worksite Training Hours

Provider staff will work with the worksite to develop a work schedule for the youth participant(s). Participant(s) should be assigned to work 20-40 hours per week for the equivalent of (13) weeks, for a maximum of 520 hours. **Payment for any hours the worksite allows the youth participant(s) to work over the 520 hours will be the responsibility of the worksite.**

Youth Work-Based Learning Payments

Participants will be employees of the service provider and will be paid weekly or bi-weekly. Participants will have their pay direct deposited into their bank account (checks may be considered in cases of hardship). It may take approximately two (2) weeks for the participant(s) to receive their first paycheck.

Youth Worksite Job Description

A Youth Worksite Job Description will be developed and attached to the Worksite Agreement. The Provider can make copies of the form as needed. If a participant(s)' job duties change, the Worksite Job Description should also be changed to reflect the new work assignment.

POLICIES AND PROCEDURES

Eligibility for Work-Based Learning Activity

The Work-Based Learning Program is designed for youth and young adults ages 18 - 24 years old that are eligible for WIOA youth services. Ideally, participants should possess a high school diploma or GED and not be Basic Skills Deficient (BSD). Exceptions may be made by Provider staff, if the participant's assessment and case notes document that the youth is prepared to benefit successfully from participation in this activity. A copy of the assessment and case notes will be placed in the participant's Work-Based Learning file at the Provider and Career Center.

I. Assessment

Provider staff will determine a participant's need for work-based learning during the assessment process. Youth Work-Based Learning is an integral part of a long-term plan, as documented on the Individual Service Strategy; and is designed to assist youth in obtaining unsubsidized employment. There should be a reasonable expectation of unsubsidized employment at the completion of the work-based learning activity.

II. Orientation

Prior to enrolling participant(s) in the Work-Based Learning program activity, Provider staff will provide participant(s) with an orientation for this activity. The orientation will include the purpose of the assignment, payment procedures, and the rules and regulations of the worksite where assigned.

IV. Worksite Selection

Provider staff should consider the following guidelines during the worksite selection process:

1. Worksite selection should correspond when possible, with a participant's expressed interest and objectives found on the ISS. The site should enhance career exploration. The worksites may be either public (governmental) or not-for-profit agencies (non-profit). Internship opportunities are also available at private (for-profit) worksites. **This may not always be possible due to limited worksite alternatives within the community.**
2. Youth participant(s) **may** work weekends, nights or holidays if it is required by the worksite and as long as supervision will be provided.
3. Prior to making a final worksite selection for participant(s), the worksite should be visited, and a brief meeting held with the supervisor.

4. Participant(s) must make a commitment to complete the youth program assignment.
5. Prior to worksite selection and referral, participant(s) should know what will be expected at the worksite.
6. Decisions for worksite selection will be made between the Provider, the worksite supervisor, and the participant(s).
7. Worksite staff must have a thorough understanding of their responsibilities and agree to comply with guidance provided in the Worksite Supervisor Handbook.
8. Worksite staff will utilize the Worksite Participant Evaluation Form to assess participant(s) progress in the performance of assignments.

V. The Worksite Agreement / Worksite Job Description

Provider staff will review the following terms of the Worksite Agreement with the worksite representatives.

1. The worksite agreements must be completed and the youth certified eligible for the program before participant(s) can begin the program.
2. Only 1 Worksite Agreement will need to be completed for each worksite regardless of the number of youth participant(s) assigned to the site.
3. The Provider, in conjunction with a worksite representative, will develop a Youth Worksite Job Description for each participant.
4. Youth work-based learning program activities will be performed under the following terms of agreement:
 - i. Youth participant(s) will be placed in assignments that will provide meaningful employment and that are in compliance with federal, state, and local laws.
 - ii. **Youth participant(s) will be supervised at all times.** In addition to supervision, Worksite supervisors will: (1) provide an orientation to work stations and safety rules associated with work performance, (2) accurately complete and sign participant's time sheet in a timely manner, (3) immediately notify the Provider in the event of a work-related accident or injury, and (4) immediately notify the Provider in the event that the participant fails to report to work.
 - iii. Participant(s) in the Youth Work-Based Learning program **will not** result in the displacement of current employees, including partial displacement, such as reduction in hours of overtime work, wages, or employment benefits.
 - iv. Youth participant assignments shall not discriminate on the basis of race, disability, sex, political affiliation, religion, creed, or national origin.
 - v. The worksite will designate a full-time employee as a contact person who will be responsible for answering inquiries at the worksite and be available for assistance with resolution of worksite problems.
 - vi. Youth participant(s) must be covered by Workers' Compensation Insurance by the Provider in the event of a work-related accident and/or injury associated with the Youth Work-Based Learning Program activities.
 - vii. The worksite agrees that if participant(s) should accidentally damage equipment or property, no damages will be chargeable to the participant(s), the Career Center, nor the program provider. However, the youth participant(s) may be held responsible for the willful destruction of equipment or property.
 - viii. The assignment to a worksite shall not exceed 520 hours, 20-40 hours per week for the equivalent of 13 weeks. It is understood that while the worksite is not required to hire the participant(s) upon completion of the training assignment, a request may be made by Provider staff for permanent/full-time placement.

- ix. Worksite supervisors will assist in ensuring that Work-Based Learning is beneficial to the participant(s) in gaining workplace knowledge, including enforcement of time and attendance policies. The worksite supervisor will offer instruction to the youth participant(s) as they would any of their other full-time employees.
- x. Each worksite must have at least 1 supervisor located at their assigned worksite.
- xi. A description of the Worksite Job Description will be developed and agreed upon between the Provider and the worksite for each participant. In addition, the Youth Worksite Participant List will state the participants assigned to the worksite. When completed, the Youth Worksite Job Description, and the Youth Worksite Participant List becomes a part of the Worksite Agreement.

VI. The Youth Work-Based Learning Program Participant Evaluation Form

The Youth Work-Based Learning Participant Evaluation Form will be used by the worksite supervisor to evaluate a participant's progress in acquiring work readiness skills. The worksite supervisor **will** complete this form. The initial rating will be accomplished by the worksite supervisor within the **first five days** of participation. The final rating will be completed **before** the participant's work-based learning time period has been completed.

VII. E-Verify

Work-Based Learning participants will be the employees of the program provider. Once the registration with the program provider has been completed, the Career Center Case Manager will scan and email the participant's employment application, Form I-9 (include the participant's email address on form), social security card, picture ID and other required employment information to the program provider on the date it is completed. Once completed, the E-verify form will be emailed to the Career Center Case Manager from the program provider. All documentation must be kept in the participant's records at the Career Center and the provider.

VIII. Customer Agreements

All participants in WIOA activities must sign and date the CAPTE Drug Policy. This form states that: 1) the CAPTE reserves the right to require participant(s) to take a drug test; 2) participant(s) who are found to have used illegal drugs will be suspended from participation until such time as it can be demonstrated that participant(s) is drug-free or has entered a drug treatment or counseling program before re-enrollment; 3) participant(s) who exhibit the use of alcohol while participating in a WIOA program will be suspended from participation; 4) participant(s) may appeal an order for a drug test and/or sanctions imposed as a result of a drug test in writing to the Jefferson County Director of Human-Community Services and Economic Development, located at: Jefferson County Courthouse, Room A-430, 716 Richard Arrington Jr. Boulevard North, Birmingham, AL 35203. A copy of the Grievance and Complaint Procedures form will be given to each participant for their records and the original signed form will remain in the Career Center case file. Participants will also be required to sign the CAPTE Information Release form, the WIOA Follow-Up form and the Americans with Disabilities Act form.

Formalized Agreements are with other organizations, educational institutions, and potential employers with whom the bidder has established linkages to provide WIOA youth services as part of this proposal and that would not be directly provided by the bidder.

6. Administrative and Fiscal Capacity – Briefly describe the administrative and fiscal capacity of the bidder to fulfill the WIOA-required documentation and record keeping, such as:
 - Collecting data and preparing the WIOA required documents;

- Security and confidentiality of participant records;
- Accounting controls;
- Use of payroll vendor services;
- Preparing and submitting monthly requests for reimbursements;
- Handling of corrective actions/findings, if needed; and
- Identity of person(s) responsible for the administrative/fiscal activities and their job title.

E. WIOA Mandated Performance Outcomes

The WIOA requires that the CAPTEWDB achieve certain performance outcomes for its WIOA funded youth programs. As a result, the CAPTEWDB will require all contractors to achieve the performance outcomes listed for their individual WIOA funded youth program. The required performance outcomes will also be set forth in the final contract. The performance measurements will be used by the CAPTEWDB over the term of the contract to hold the contractor accountable for achieving the required performance outcomes.

If a contractor fails to achieve the required outcomes or fails to comply with the performance measurement requirements in any way and renders the CAPTEWDB unable to determine whether or not the contractor has achieved the performance outcomes – the CAPTEWDB and Jefferson County has the right to terminate the contract and cease all funding of the contractor’s WIOA Youth Program.

F. Program Performance Measures & Outcomes (This section is limited to 4 pages)

Identify the proposed activities (i.e. welding certification), estimate the number of youth expected to complete the training and enter into training-related, unsubsidized employment. If the proposed outcome is entry into the military, or entry into a post-secondary educational institution, estimate the number of youth that will achieve this result. Clearly indicate how the required performance measures will be tracked, reported and how the source documentation will provide sufficient verification that performance measures will be accomplished.

In preparing this portion of the proposal, refer to the DOL website for the WIOA Mandated Performance Measures which will provide direction on performance, methodology and common measures reporting (primary indicators of performance). Bidders must demonstrate that the performance measures contained in the proposal will result in compliance with those mandated performance measures. The achievement of performance measures will be used by the CAPTEWDB to hold contractors accountable for the performance outcomes imposed on the CAPTEWDB for WIOA funded youth programs.

G. Statement of Experience

A statement of experience prepared on company letterhead which explains why the organization is qualified to be a WIOA youth service provider, signed by the authorized agent and which includes the following:

- i. knowledge of the Workforce Innovation and Opportunity Act (WIOA) and the regulations guiding WIOA activities and services
- ii. history operating youth programs for low-income youth, which includes program performance and outcomes
- iii. the organization’s mission and capacity to integrate the CAPTEWDB WIOA youth services into the organization’s overall operation
- iv. description of the relevant experience of the organization’s key staff who will be involved in planning the youth service(s) the organization will deliver as a contractor
(In the Budget Narrative section include a resume and job description for each position to be funded in whole or in part in the organization’s proposed budget)
- v. description of the organization’s internal monitoring system and demonstrate how it is effectively used to ensure quality and identify program, personnel and/or fiscal issues
- vi. description of the organization’s corrective action procedures
- vii. affirmation that the bidder is a valid legal entity in the State of Alabama, such as a corporation, partnership, etc. and *attach* copies of the official papers showing formation of a corporation, partnership, or sole proprietorship

- viii. copy(s) of current business license(s) and permit(s)
- ix. identification of the number of years the agency/organization has been in business under the present business name, as well as prior business names
- x. suspension requirements from prior contracts or an applicable statement that the bidder or its principals have not been suspended from any prior contracts
- xi. completed Statement of Qualifications for Bidder's List (see Attachments)
- xii. certification that the organization is not proposed for debarment, is not presently debarred, suspended, or declared ineligible, as required by Executive Order 12549, "Debarment and Suspension," and implemented by 28 CFR, Part 67, for prospective participants in primary covered transactions
- xiii. evidence that the WIOA funding requested in its proposal and submitted under this RFP will not exceed 50% of the organization's gross revenue
- xiv. completed Disclosure Statement (see Attachments)
- xv. W-9

H. Financial Statements/Audit Requirements

Provide a copy of the most recent and complete audit and/or financial statements available for the organization. The financial statements shall be for a fiscal period not more than 18 months prior to the submission date for the proposal. If an audit is of a parent firm, the parent firm shall be party to any contract resulting from the proposal.

I. Insurance Requirements

Bidders awarded a contract are required to meet insurance requirements (Form 9, Section 58). The proposal should include current certificates of insurance for general liability, auto and workers' compensation insurance. **At a minimum**, all proposals must include a letter signed by their insurance agent, on their insurance company's letterhead, stating that the insurance requirements can be met and will be included in a policy if a contract is awarded.

The Proposal Budget

The purpose of the Proposal Budget is to demonstrate how the proposal will implement the proposed plan with the funds available through this program. The budget is the basis for management, fiscal review, and audit. Proposal costs must be directly related to the objectives and activities of the project. The budget must cover the entire contract period. In the budget, include only those items to be covered by WIOA funds. Bidders are highly encouraged to supplement WIOA funds with funds from other sources. If non-WIOA sources of funding will be used to supplement WIOA funding to support the proposed youth services, explain how the funds will be used to support the proposed WIOA youth services. Final budgets will be determined after WIOA youth allocations are received and the providers of youth services selected.

The bidder shall develop a **line-item** budget that will enable the proposal to meet the intent and requirements of the program, ensure the successful implementation of the project, and are cost-effective. The bidder should prepare a realistic and prudent budget avoiding unnecessary or unusual expenditures that would detract from the accomplishment of the objectives and activities of the project. The following information is provided to assist in the preparation of the budget. Strict adherence to all required and prohibited items is expected. **Where the bidder does not budget for a required item, the bidder assumes responsibility for the cost of that item.** Failure of the bidder to include required items in the budget does not affect the responsibility of the bidder to provide those items during the implementation of the project.

All expenses incurred prior to the contract being awarded and the agreement fully executed are the responsibility of the bidder.

1. The Budget Narrative (This section is limited to 2 pages)

Bidder is required to submit a narrative with the project budget. The narrative must be typed and placed in the proposal in front of the budget pages. In the narrative describe:

- a. How the project's proposed budget supports the stated objectives and activities in the project;
- b. How funds are allocated to minimize program costs and support direct services to participants;

- c. The duties of project-funded staff, including qualifications or education level necessary to the job assignment;
- d. How project-funded staff duties and time commitments support the proposed objectives and activities;
- e. Proposed staff commitment/percentage of time to other efforts, in addition to this project, any unusual expenditures; and
- f. Identify all proposed subcontracts.

2. Budget Form

Refer to Forms 3, 5 and 6; complete the forms using the electronic version (Excel Document) available in the contracting section of the RFP.

Each budget category requires additional line item detail that addresses the method of calculation and justification for the expense. Enter the amount of each line item. All charges must be clearly documented and rounded off to the nearest whole dollar.

3. Organizational Chart

The organizational chart should provide a clear and detailed depiction of the structure of the bidder organization, and the specific unit(s) within the organization that will be responsible for the implementation and operation of the project. The organizational chart should also depict supporting units within the organization (e.g., the Accounting Unit) and depict the lines of authority within the organization. Job titles on the organizational chart should match those in the budget and budget narrative. Include a job description for each position funded, in whole or in part, in the organization's proposed budget. A current resume of all personnel funded, in whole or in part, must also be included.

4. Formalized Agreements

Formalized Agreements for proposed services not being administered by the bidder must be dated and contain signatures, titles and agency names for both parties. The formalized agreement must demonstrate a formal system of networking and coordination with other agencies and the project. Those submitted with the proposal must be effective for the proposed program year. For the purposes of this RFP, the terms "Formalized Agreement" and "Memorandum of Understanding (MOU)" are synonymous.

5. Program Costs

Program expenses are defined as necessary and reasonable expenditures exclusive of personnel salaries, benefits and participant costs. Such expenses may include specific items directly charged to the project. The expenses must be program-related (e.g., to further the program objectives as defined in the contract award) and be encumbered during the contract period. Reimbursement will be through a line item reimbursement contract. To obtain reimbursement for program costs, you must document costs. If the proposal to serve as a contractor is funded, you will itemize all costs associated with the program on the budget forms included in the contract. Supportive Services and/or incentives to be paid with WIOA funds must be listed in the budget.

6. Participant Costs

Participant Costs include the cost of items that are spent directly on individual participants and are tracked by individual enrollment. Possible costs include participant supportive services (transportation and ancillary items), participant wages, participant supplies, participant incentives and participant tuition and fees incurred to achieve participant goals, objectives and activities.

7. In-Kind/Leveraged Funds

Bidders are required to seek in-kind contributions and/or leveraged funds from non-agency sources to assist in the operation of this project. **An amount which is at least ten percent (10%) of the amount of funding requested must be supplemented from in-kind services, equipment or space or contributions from funds that are being leveraged from other sources.** *Note: Submit a budget based on the total contract.*

8. Prohibited Expense Items

- k. **Marketing** - the process or technique of promoting, selling, and distributing a product or service.
- l. **Advertising** - the action of calling something to the attention of the public especially by paid announcements.

Evaluation Process and Scoring Criteria

Oral Presentation – 20 points

The date for Oral Presentations will be emailed to each proposer once the Board provides the hearing date to staff. The presentation will be limited to 15 minutes. No PowerPoint presentations can be presented, but handouts may be distributed.

Funding Recommendation Process

Recommendations for funding will be based on the following:

- The score of the proposal
- Consideration of the funding priorities or geographical distribution of selected proposals as applicable to each program
- Prior negative administrative and programmatic performance and compliance as a County or Regional-funded project, if applicable;
- Cost vs. benefit of the proposed program. Proposals that do not budget at least 75% of total funding directly to participants may not be recommended for funding.

In accordance with Federal/State regulations, projects previously funded by the CAPTEWDB will be reviewed for past performance, including financial management, progress and annual reports, monitoring results, audit reports, results of credit worthiness and any other relevant information. This review may result in one or more of the following actions: a) the project may not be selected for funding; b) the amount of funding may be reduced; or c) contract award conditions may be placed in the contract.

Proposals are first submitted to the WDB Youth Standing Committee who will make recommendations for funding to the CAPTEWDB. The Board makes the final approval for funding and forwards the contract to the Jefferson County Commission for signature authorization.

The CAPTEWDB staff will conduct a pre-award site review to determine the administrative capacity of the bidder, and to address the ability of the bidder and/or its partners to deliver the proposed services. This review may include a request for appropriate documents (e.g., insurance) and completion of Fiscal and Administrative Capacity Policies & Procedures for Jefferson County and/or the CAPTEWDB review.

If a bidding organization has little or no experience administering a WIOA Youth Program, the CAPTEWDB may require the organization to obtain a WIOA experienced mentor agency to assist and provide program guidance for the initial contract period. This is in order to build capacity and ensure that organizations are successful and fully understand the provisions of the WIOA Youth Program. This may also include limiting youth participant numbers. These provisions are to ensure the overall program success and performance outcomes.

Notification Process

All bidders submitting an approved proposal will receive notification of the funding recommendations.

Rejection of Proposal

The CAPTEWDB reserves the right to reject any and all proposals received pursuant to this RFP. The CAPTEWDB will not pay for any information herein requested, nor is it liable for any costs incurred by those submitting proposals. The CAPTEWDB also reserves the right to select the contractor(s) who will best meet the needs of the region and the program; the selection will not necessarily be based solely on cost.

Appeals

An appeal of a denial of award can only be brought on the following grounds:

- (1) Failure of the CAPTEWDB to follow the selection procedures and adhere to requirements specified in the RFP or any addenda or amendments.
- (2) There has been a violation of conflict of interest as stated in Form 9 Section 32.
- (3) A violation of State or Federal law

Appeals will not be accepted for any reasons other than those stated above. Appeals must be sent to:

Pamela Mapp
Sr. Administrative Analyst/Program Supervisor
